7. Line compensation was paid:-

1. Community was not satisfied due to technical terms which were being applied by the Vertuor.

E.g. - J. P. Just Planted, Average, Young

- Different Rates were applied to pay

- The crops which were counted at first - were not the ones on the final payment sheet

- Changing records during the payment period.

- The Consultative <sup>Committee</sup> ~~Committee~~ was dominated by Bell officials. It was selected by Bell and at the same time controlled by Bell.

- In the places where the towers were constructed were not compensated properly or not paid at all. Yet during valuation on Ezer, promises were made to be paid differently.

We, the Bujagali Swimmers' group - part of the Bujagali community, on behalf of our team of eleven (11) swimmers wish to raise our complaint to the CAO regarding the Bujagali project.

We request that ~~BEH~~ BEH compensate us regarding our affected livelihood that we used to earn from the ~~river~~ Bujagali Falls.

Before the project, we used to entertain visitors over the falls and this was a source of income to sustain us and our families.

We had meetings with them regarding compensation but they have not amounted to any positive results. The promises made have not been honoured and now the project is winding up. (see letter attached) - Pg. 5

RE: COMPLAINT OF MIS COMPENSATION

We members of the above mentioned groups we are complaining to management of BEL which has failed to compensate us as it was discussed with us at Sub-County Hqrs. Budondo.

However, this complaint is referred to a period of the last three years where the BEL officials headed by Mr. hubega Zed who interviewed those groups ending or concluding with a promise of paying them for their survival for their future benefits.

In addition we are appealing for a grant of assistance straight forward to the BEL Director MR. Bilh.

Failure to comply with the hand of support to our demand, we shall stand ready to go to Media Press and other Legal authorities.

Hope for your ~~amic~~ <sup>dynamic</sup> handling of the matter.
